AP229: Bachelor of Building Surveying (Hons)

PROGRAMME STRUCTURE

It is a comprehensive programme which incorporates various aspects of building surveying with emphasis on process, analysis and a detailed understanding of theories and concepts applied in building control, building pathology and maintenance.

The programme is offered on full time and part time basis. The part time or out-campus mode of study is offered to the candidates with diploma qualification only. The minimum duration of study for part-time mode is three years. A semester period is applied with 14 weeks of study, one week of study leave, two weeks of final examination. The classes are conducted night time on the weekdays.

ACCREDITATION

The programme is fully accredited and granted full exemption from examination of the Royal Institution of Surveyors Malaysia (RISM), the Royal Institute of Chartered Surveyors (RICS), United Kingdom and the Public Services Department of Malaysia.

CAREER OPPORTUNITIES

Graduates of the Building Surveying may be employed in the public or private agencies as Building Surveyor, Facilities and Maintenance Manager or other related services. The graduates have been employed as building surveyors in federal and state authorities such as City Halls, Municipal Councils, Federal and State Government agencies, housing developers, hotels and
resorts and other related industries.

**ENTRY REQUIREMENTS**
