AP236: BSc (Hons) Construction Management

PROGRAMME STRUCTURE

It is a comprehensive programme which incorporates various aspects of construction management with emphasis on process, analysis and detailed understanding of theories and methods applied in construction and development. The programme was formally known as Bachelor of Construction Management (Hons).

The programme is offered on full time and part time basis. The part time (out-campus) mode of study is offered to the candidates with diploma qualification only. The minimum duration of study for part-time is three years. A semester period is applied with 14 weeks of study, one week of study leave, two weeks of final examination. The classes are conducted night time on the weekdays.

ACCREDITATION

The degree programme is fully recognised by the Chartered Institute of Building, United Kingdom and the Public Services Department of Malaysia.

CAREER OPPORTUNITIES

The programme prepares the graduates for wide range of careers in the areas of the design and management of the construction process. With the rising urbanisation, the graduates have high favourable future prospects in construction industry. In term of employability, graduates of Construction Management programme are highly sought after in private sectors as project manager, site manager, construction manager and development manager. Graduates also have career opportunities in public sectors like Public Works Department, State Economic Development Corporations, Local Authorities and government development agencies.
