The Department of Landscape Architecture at UiTM was established in 1985 when the first batch of cohort students were registered to a Diploma in Landscape Design programme. Ten years later, in July 1995, the Bachelor of Landscape Architecture (Hons) was offered by the Department. Both programmes are recognised the Public Services Department of Malaysia (JPA). The Bachelor programme is also recognised by the Institute of Landscape Architects Malaysia (ILAM).

At present, the Diploma programme is offered at Seri Iskandar Perak while the Bachelor of Landscape Architecture (Hons) programme is conducted at Puncak Alam FSPU campus.

To prospective students, please read "A quick guide to a career of a Landscape Architect" that appears at the frontpage of our website.
